"Why, of course, I can," answered the bunny, and, looking around the corner of an old log he saw Grandpa Whackum, the cld beaver gentleman, who lived with Toodie and Noodie Flattail, the beaver boys.

"Tome in and sit down for a minute and rest yourself," invited Grandpa Whackum.
"I will," said Uncle Wiggliy. "And I'll leave my butter outside where it will be cool," for Grandpa Whackum lived down in an underground house, where it was so warm in summer, that butter would melt.

Grandps Whackum was a beaver, and he was called Whackum because he used to whack his broad, flat tail on the ground, like beating a drum, to warm the other beavers of danger. Beavers you know are something like big muskrats, and they like water. Their tails are flat, like a pancake of eage turner.

"Til take my butter and travel along," he said.

But when he went outside, where he had left the pound of hutter on a flat stimm, it wasn't there.

"Why, this is queer," said the bunny uncle. "I wonder if Nurse Jane could have come along and taken it to the hollow stump bungalow herself."

"More likely a had fox took the butter," spoke the old gentleman beaver.

Just then, off in the woods, near the beaver house, came the sound of laughter and voices called:

"Oh, it's my turn, now, Toodle."

"Yes, Noodle, and then it's mins. Oh, what fun we are laving aren't wst."

"It's Toodle and Noodle-my two beaver grandsons," said Grandpa Whackum. "I wonder if they could have taken your butter? Come; we'll find out."

They went softly over behind a clump of bushes and there saw Toodle and Noodle sliding down the slanting log of a tree, that was like a little hillonly there was no snow on it. "Why, they're coasting!" cried Grandpa Whackum. "And how they can do it without snow, I don't see."

"But I see!" said Uncle Wigsily. "Tame two little beavet boys have taken my butter that I left outside of your house and with the butter they have greased the slanting log until it is slippery as ice. That's how they slide down—on Norse Jane's butter.
